

# SMART WorkSpace

Your roadmap to digital workplace transformation

Digital transformation in the workplace means a “nine-to-five, one-location” style of working is out; and “always-connected, anytime, anywhere” productivity is in. This means it’s imperative to make your workforce “digital ready”, which is now made possible with the SMART WorkSpace by Sogeti.

The combined power of Intel and Sogeti, has developed the SMART WorkSpace, an innovative suite of services that create a tailored solution that unlocks the true value of a connected workforce.

The solution can be tailored to your needs, with each service primed to kick-start digital transformation for any company or organization — public and private — whose workforce productivity relies on technology, whenever and wherever they are working.

## WORKSPACE INNOVATION

- Sogeti is committed to driving continuous innovation for customers with solutions like SMART WorkSpace.
- SMART WorkSpace was designed to improve customers’ connected workforce strategies, helping them to better understand and leverage innovation and to apply it at the right speed and scale.
- The objective to immediately start seeing benefits that drive a direct impact to the business, in a secure and sustainable manner.
- The Sogeti/Intel partnership is committed to innovation and believes that technology must constantly evolve at the speed of business to make collaboration possible, no matter where you are or what device you’re using.

## THE FOUR PILLARS OF THE SMART WORKSPACE

1 User-Centric Design

2 Anytime, Anywhere Availability

3 Think Globally, Execute Locally

4 Anticipate, Innovate

Start customizing your roadmap to digital workplace transformation...

### WORKSPACE ADVISORY SERVICES

- A true digital business engages customers and/or employees across any channel or device.
- Whether or not you have a strategy in place, WorkSpace Advisory Services can help you evaluate the best way for your company to work; and design and implement an achievable, customized transformation roadmap to become a true digital business.

Sogeti has done this at a financial services company, where it fully mapped their transformation trajectory to a future-proof workspace, with solutions from Intel, Microsoft, Citrix and VMware.

### APPLICATION MODERNIZATION SERVICES

- Building or modernizing next-generation apps to improve agility, support multiple devices and accelerate time to market is critical to digital transformation.

Application Modernization Services built a responsive content portal for a global IT company, compatible with Windows, iOS, Android, and hosted in Microsoft Azure cloud.

### CLOUD MIGRATION SERVICES

- Fully leveraging the cloud to create agility, unlock innovation opportunities and reduce costs.

With Cloud Migration Services, a European postal service moved more than 30 applications to the Microsoft Azure platform and closed its own data centers, dramatically reducing costs.

### OS MIGRATION SERVICES

- Migrating to the right device and OS combination lets the connected workforce work wherever, whenever and however. More than 5 million Windows devices migrated already... and counting.

Sogeti helped a leading travel software developer meet user demand for mobile devices by designing an automated standard image for Windows that could be deployed to any user-selected device, while powerful Intel Architecture maximized security and remote manageability features.

Nearly 80% of employees spend some time working outside the office

### SYSTEMS MANAGEMENT SERVICES

- Managing mobility by simplifying device registration and synchronizing corporate data across devices is offered through these services.
- It improves security for remote cloud access and on-site mobile devices.

Sogeti helped a retail services company manage all POS and sales specialists’ devices from a single pane of glass, allowing all devices to be constantly and consistently updated, enabling improved customer service.

### WORKSPACE-AS-A-SERVICE (WaaS)

- Continuous innovation guarantees access to the newest technologies and features.
- Benefits include: fast time-to-implement, unlimited scalability, transparent cost-per-workspace; support for Windows, iOS and Android devices.

An architectural client uses WaaS to allow Sogeti to manage and update their digital devices, and allows them to focus on what they do best — cutting-edge building design.

THE WORKPLACE IS NO LONGER A PLACE  
IT'S WHAT PEOPLE DO!
